As of December 7, 2006, we no longer accept any insurance and require full payment for physical therapy services. All patients are required to pay at the time of service and will be given a "Superbill" and receipt to submit for reimbursement to their insurance provider. We are considered "Out-of-Network Providers" for most insurance carriers (except Medicare; please see following).

Medicare patients who choose to have Physical Therapy at TAVO Total Health vs. a Medicare affiliated facility understand and accept that they will not be reimbursed by Medicare as we are not providers. Medicare patients who wish to submit claims to their secondary insurance carriers (Cigna, BCBS, Aetna, etc) should know that they'll need to 1st submit to Medicare in order to receive "Denial Documentation". That Denial Documentation can then, along with our Superbills and receipt of payment, be sent to the secondary insurance company for reimbursement consideration. Medicare will require you to comple te a "Health Insurance Claim Form" which you can request of them.

I understand and accept that TAVO Total Health, LLC does not participate with or accept payment from any insurance company; does not accept Worker's Compensation cases; does not accept cases where payment is contingent on law suit settlement; and is not a Medicare provider:
